With **over one hundred stocked fabrics** and hundreds more available on special order, creating your perfect look has never been easier.

Introducing Ebel Elite! We've upgraded our standard deep seating cushions for 2024 - **enhancing comfort** and providing

an **unmatched seating experience**. The cushions are now thicker and more plush, offering a more **luxurious feel**. Made with **High-Resilience foam further improving comfort**, durability, and longevity. These enhancements affirm Ebel's commitment to providing high-quality products that prioritize **comfort and durability**. Ebel Quick Dry Cushions

Weather-proof options are available for cushions that are fully exposed to the elements. Upgrading seat cushions with Ebel Quick Dry reticulated foam allows water to run through the cushions resulting in faster drying times. Additionally, Sunbrella Rain fabrics, available by special order, are manufactured with a special barrier coating applied to the back of the fabric preventing water from penetrating into the cushion.

Performance Fabrics

Handcrafted

Ebel Elite Comfort

Crafted with the finest materials

Using state-of-the-art equipment such as digital fabric cutting machines, automated sewing machines, and stuffing machines, our cushions are crafted with precision creating a beautiful and comfortable cushion.

When you purchase an Ebel product, you get more than just great designs and high-quality craftsmanship.

“
Since 2007, Ebel has partnered with Trees for the Future.
”

TREES is an organization committed to promoting agroforestry and providing renewable energy to impoverished areas. For every piece of furniture we produce, Trees for the Future plants one tree.

Trees for the Future operates in degraded and deforested

regions, tackling climate change and world hunger. Farmers are trained to sustainably revitalize their land. This provides sources of food they otherwise would not have access to. Through TREES' Forest Garden Approach, farmers plant thousands of trees that provide protection and nutrition. Their gardens and soil are restored through nitrogen fixation.

This helps farmers grow a variety of fruits and vegetables. Forest Garden farmers gain increases in income and food security, even in the first year.

Learn more about the good TREES is doing at their website trees.org or follow them on social media: [@treesforthefuture](https://twitter.com/treesforthefuture).

Revitalize

Survival

TREES provides resources and brings hope to impoverished children & families.

Venice

Sink deep into the comfort of our daybed

The Venice Daybed is a versatile item offering two options for use: as a swing or a standing daybed. It comes with thick, white ropes that allow you to suspend it and enjoy a gentle swinging motion, or you can choose to stand it up in your favorite location. Additional enhancements include a canopy frame which comes with a canopy, side, and back curtains offering both shade and privacy. The seat cushion is sized like a twin mattress, providing ample space to stretch out or snuggle up with your favorite people. Whether you're looking to lounge by the pool, read a book in the garden, or simply take a nap in the sun, the Venice daybed is the perfect way to relax the day away.
